Applicant's arguments filed 2/28/02 have been fully considered but they are not persuasive.

I. Rejection of claims 61-65 over Goodenough on record will be maintained for reasons on record and reasons as follows. Interference set-up will be delayed until art rejection is overcome.

Applicant argues that Goodenough on record was cited in the patenting of Applicant's US 6,156,229 patent. Goodenough is presently cited in instant US application. Applicant argues that Goodenough should not be maintained in instant application for the purpose of maintaining consistency. Therefore, applicant is requesting that prior art rejection be withdrawn and that an interference be set-up between 6,156,229 and instant application.

Examiner maintains that Goodenough on record will not be withdrawn. Applicant must provide unexpected data for instant invention over Goodenough. Until applicant can provide examiner with said data, Goodenough art rejection on record will be maintained and interference set-up will be delayed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR

Art Unit: 1616

1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
